

April 6, 1999

Dear Mr. Jaffe,

5667 '99 APR 13 AM 11:04

I'm writing to show support of the petition to ban the forced molting of layer hens (docket 98P-0203/CP). The lives of today's hens are miserable enough without being stressed and shocked into losing their feathers in order to force their worn-out bodies into a new laying cycle.

Sincerely,

*Karein van der Lee*
